Business Description

QBE Insurance Group Limited (QBE) is engaged in underwriting general insurance and reinsurance risks, management of Lloyd's syndicates and investment management. QBE's property insurance products provide cover against physical loss or damage to assets. Its motor insurance products provide corporations, businesses and individuals with a range of protections for their commercial and private vehicles. QBE underwrites workers' compensation business for its own account or as an agent of government-based schemes. In January 2006, QBE, through its subsidiaries, acquired QBE Insurance (Vietnam) Company Limited and acquired Austral Mercantile Collections Pty Limited, and sold 50% interest in QBE Insurance Company Limited. On April 8, 2006, QBE's subsidiaries acquired QBE Nordic Aviation Insurance A/S. On July 1, 2006, it acquired interest in the Concord Group of companies. In May 2007, QBE acquired Praetorian Financial Group and Winterthur US. For the six months ended 30 June 2007, QBE Insurance Group Limited's revenues rose 15% to A\$6.98B. Net income increased 56% to A\$921M. Revenues reflect increased premium earned, higher net fair value gains on financial assets and the presence of gain on sale of related entity. Net income benefited from decreased expenses from ABC securities for funds at Lloyd's. QBE Insurance Group Limited is a general insurance and reinsurance Company.

Market Presence

More blocks are expected to be allotted in NELP VII and retail expansion further can also give a major boost to the valuation. We recommend a BUY for the stock. Financial Summary: Comparative share price movement: It enjoys **dominant market share** in India with 65% in polyester 28% in refining 68% in polymers 78% in fiber intermediates. Huge cash generation expected, figures leading to higher profits.

However the merger with IPCL will sustain its dominant position in the market with estimated growth of 13% in the coming years. RIL IPCL merger: A major intelligent move by the company is the merger with IPCL. The merger would provide good amount of synergies and **competitive advantage**. It is expected that the petrochemical cycle is likely at its peak. By 2008-09 with planned expansion of Iran in petrochemical the prices are bound to come down with more capacity expansions and stronger supply side.
