## Pricing news for 2010

# Journal subscription prices frozen for 2010 e-only access

IOP Publishing is introducing an e-only subscription option for all titles for the first time in 2010.

The new e-only option will allow us to hold 2010 journal subscription prices for many titles at 2009 levels. E-only versions of packages A, B, C, D, D+, F, I and Z will also be available for the first time.

Customers wishing to take advantage of e-only pricing should e-mail [moreinfo@iop.org](mailto:moreinfo@iop.org) or contact their regional representative or subscription agent.

Full details of 2010 prices are listed on pages 3–7 of this bulletin.

## Other price and package changes

### Price increases for print in 2010

There is a 5% increase across the vast majority of IOP Publishing-owned titles for the print plus online subscription option.

#### Subscription fees for new journals

*Biofabrication*, *Journal of Semiconductors* and *Chinese Physics C* will charge a subscription fee for the first time in 2010. All three journals will also be added to IOPscience licences and Package Z. *Chinese Physics C* will also be included in Packages A and B.

#### Discontinued packages

Packages G, H, M and P will no longer be available in 2010. Customers taking these packages should already have been contacted by their regional manager to discuss alternative options.

#### Package I Change

*Optics and Laser Europe* magazine will no longer be included in Package I. The price of the package will be reduced to reflect this change.

## Journal changes

- **Journal of High Energy Physics (JHEP)**

From 1 January 2010, JHEP (ISSN 1029-8479) will no longer be available from IOP Publishing. The 2010 volume will be available from Springer. More information about the move is available at [www.iop.org/journals/jhep](http://www.iop.org/journals/jhep).

- **Journal of Optics – new name for 2010**

*Journal of Optics A: Pure and Applied Optics* will be shortening its name to *Journal of Optics*. The new print ISSN is 2040-8978 and new online ISSN is 2040-8986.

- **Frequency changes**

Both *Plasma Sources Science and Technology* and *Journal of Physics D: Applied Physics* will increase in frequency in 2010. *Plasma Sources Science and Technology* will increase from four to six issues per annum. *Journal of Physics D* will increase from 24 to 50 issues. The e-only price for both journals has been frozen at the 2009 price.

- **New IOP open-access journal**

A new open-access journal *IOP Conference Series: Materials Science and Engineering* is now available. Visit [conferenceseries.iop.org/mse](http://conferenceseries.iop.org/mse) for more information.
